<TEXT>Reject a flat fee proposal that would change how
contributions are made to the Universal Service Fund.

Residential customers should not have to bear the same universal
service fund burden as a high-volume or business customers.

My wife needs that cell phone for safety, security and
convenience. We can't afford an unequal, unfair tax.

Furthermore, flat taxes are no good and we consumers know it.
That's why Steve Forbes can't get elected. Make the large
corporations pay according to their usage and scale.

Sincerely,

Drew Bowman
